OPTEN Informatics Ltd. grants "A" Qualification to the aforesaid company.

RELIABLE & LOW RISK

Tamás Tóth
Managing Director
OPTEN Informatics Ltd.

The crisis-proofness index is a general, industry independent composite indicator which focuses on those financial and other company data which are considered highly important in case of an economic downturn, while the risk classification of OPTEN Ltd. is based on a method for classification of companies employed throughout the country, using modern data mining algorithm on the basis of several hundreds of variables.
